Gluttony is last in the seven deadly sins foot race, huffing and puffing, but it's not for lack of trying. Other poems offer a more personal point of view with assured and tender love poems. Funk writes from experience of marriage and domesticity, and of the ways in which a relationship shapes the person one becomes. A series of poems is drawn from family reminiscence. Children play flashlight tag, a father builds his daughter a tree house, a mother makes a blue velvet Christmas dress: this is poetry created from memory's ragbag. Funk makes something captivating from the cast-off, beauty from memory. Book jacket.

The only way to answer that question is to install various parts on a car and test the power output on a dynamometer (dyno). Richard Holdener has done that in High Performance Honda Dyno Tests. Holdener's extensive testing provides dyno-proven data for all popular Honda performance parts, from air intake systems to exhausts, cams and cylinder heads to nitrous, turbos, and superchargers. There is even a chapter on engine build-ups. In addition, dyno tests on nearly every Honda model, from the single-cam DX to the 2.2L Prelude, are included. Acura models are covered as well, from the 1.8L LS through the GSR and Type R all the way up to exotic NSX. There is no better place to find performance answers than in this book.
