The Choice for Consciousness, Tools for Conscious Living Veronica Torres 2012-05-24 Through the act of loving yourself, you give the gift of the truth of you to this world. The most powerful way you can be in the world is by loving yourself well and then living your life from that place. The question is: how do you do that? How do you love yourself when faced with overwhelming responsibilities, guilt, and feeling like the world is stacked against you? You love yourself well when you make the choice for consciousness. Consciousness changes the way you view yourself and the way you view your life. Change is rarely easy; yet staying the same offers no relief from suffering. The choice for consciousness is challenging, but familiar suffering is painful--and it's a pain with no end in sight This book provides step-by-step support to help you release victim mentality; drop baggage and unhealthy habits; and discard fear-based living. It will show you how to live as the creator of your life. This volume contains 16 tools and 137 definitions of terms and concepts to support your journey. The tools can be used in any order and are very powerful when combined with each other. The fear of change and the habit of staying small collaborate to say, "No, no, no, don't you dare change because that could be dangerous. Who knows what will happen if you change?" That's the moment when you have to take the risk of allowing yourself to walk the truth of you in the world. When you hear the voice that says, "No, no, no, I can't be that big. I can't shine my light that much. I can't emanate the truth of me to these people," that's the point when you need to say instead, "I want healing above all else. I want healing above all else. My desire for healing is stronger than my fear of what will happen if I shine my light, than my fear of how my truth will be received. My desire for healing is stronger than that. Emanation of the truth of me comes first." The Choice for Consciousness, Tools for Conscious Living series offers channeled messages from Eloheim and The Council. The Council is comprised of seven different groups: The Guardians, The Girls, The Visionaries, The Matriarch, The Eloheim, The Warrior, and Fred. During a channeling session, each of The Council members take turns sharing their teachings. Each Council member has a distinct personality, style of delivery, and focus. The Council is best known for their multitude of practical tools, which support the journey out of fear-based living into the consciousness-based operating system. The Choice for Consciousness, Tools for Conscious Living series is designed to offer step-by-step tools to support your movement out of the fear-based operating system into the consciousness-based operating system; to help you let go of baggage, static, and unhealthy habits; and to show you how to discard victim mentality, so that you can live fully as the creator of your life. Volume One of the series contained twenty-two tools that concentrated on the realization that you create your reality. This volume contains sixteen tools created to help you begin to LIVE as a creator. The tools can be used in any order and are very powerful when combined with each other. This book is not a narrative, but a reference text we hope you will return to again and again.

Chosen by the Vampire Kings Charlene Hartnady 2016-07-26 Every hundred years, tradition dictates that all eligible females in Sweetwater assemble for the choosing ceremony. Two vampire kings have separate territories within the surrounding countryside. Both are eager to pick their future brides. What a waste of her freaking time. Tanya is among the many women at the choosing ceremony. As far as she's concerned it's an outdated, sexist event and if it wasn't mandatory she so wouldn't be here. It's not important that the two males are ridiculously rich and handsome. Deep down she knows a plain Jane like her will never be picked by one of the kings anyway. Many of the women in the town square are stunningly beautiful and model thin. Most seem enthusiastic about being a queen even if it means being mated to a blood sucker, which suits her just fine. Imagine her surprise though when King Brant sets his sights firmly on her. Once a vampire king has decided, there's no going back. But her home is in Sweetwater. Being forced to live amongst the vampire species...big gulp...forced to mate with a vampire...is not what she had in mind for herself. Maybe she can convince him to let her go, to pick again. If not, she'll have to find a way to escape his - very muscled and rather delicious - clutches.

Your Choice, Your Voice, Our Future Richard Light 2017-04-06 Your Choice, Your Voice, Our Future What I am offering Maine is nothing like what others who have run for this position have offered. I have never wanted someone to be my voice, and I do not offer to be yours. I am using this opportunity to shine light on the system that creates a state for elites and keeps everyone else from having a voice. I am running for Governor of Maine to educate, and if we win, I am smashing the stage so everyone may have their voice heard equally. Our system is disenfranchising, falsely binary, oppressive, and fraught with contention and slavery. We can rise against this or we can continue on the same path. It has been the result of the American system that generation after generation left this nation (and the world) freer and more prosperous than the last. We cast off race-based slavery, we have destroyed the notion that one gender should rule while the other obeys, we had built a nation of rights and freedom... but, we have backslidden. Our nation is not better off than it was a generation ago. We are in unprecedented debt, have resurfaced racism and sexism, we have instilled a class warfare, and we are being oppressed by fascism and authoritarians. Generation X and Millennials have less opportunity, less ability to grow and flourish, and less unity than our grandparents. We have been slowly taken over by a rotting infestation of cronies, puppet masters, propogandists, and dictators. As our nations becomes more centralized, Maine can stand in opposition. We have an opportunity to demonstrate what America has lost. Maine has strong educators, doctors, nurses, social workers, counselors, laborers of all types, and most respectably, we have strong work and moral ethics. Our State has diversity and a will to surpass obstacles and be reveled across the nation and world. We need the will to see an opportunity through the despair. By continuing what we do best, by growing rather than contracting, by embracing innovation and adaptation rather than antiquity and failed ideas, we can guide America back to prosperity. Maine can be the economic engine of tomorrow's America. Through this book, we have covered Education, Healthcare, ideological spectrums, Corrections, Rehabilitation, Culture, Community, politics, Economics, Energy, business, debt, governance, and a slew of other topics. Through this journey, we have delved into what keeps us from growth, how we can overcome oppressing obstruction, and what we could do to drop the shackles and pick up prosperous freedom. Reaching a better future for everyone takes change. Change is not always easy; change is often coupled with fear. We need not fear the future and change when we can be so positively impacted. When we decide to swallow our fear and move toward a better future, we will be unstoppable. I am applying for a job: the executive position of our State of Maine. This is your choice, your voice, our future. Richard Lee Light

The Course of Nature Robert Pollack 2014-08-13 Humanity is a part of Nature, yet every thinking person at one time or another asks herself or himself, "How did we get here? What makes me different from the rest of Nature?" In *The Course of Nature* an artist and a scientist ask those questions with full respect for all contexts, both scientific and not. Amy Pollack's figures stand on their own as elegant summaries of one or another aspect of Nature and our place in it. Robert Pollack's one-page essays for each illustration lay out the underlying scientific issues along with the overarching moral context for these issues. Together the authors have created a door into Nature for the non-scientist, and a door into the separate question of what is right, for both the scientist and the rest of us.
