Extreme Sustainability Rhetoric and Sustainable Development Mauro Fracarolli Nunes 2022-08-01 This book considers the nature, causes, and consequences of extreme pro- and anti-sustainability rhetoric, exploring how and why the expressions of radical views on sustainability-related themes may prevent real sustainable development. Following a thorough introduction on sustainability rhetoric, on dialogue, and on the role played by ideologies in the building of environmental beliefs, Fracarolli Nunes and Lee Park examine positions and statements expressed or made by individuals, companies, governments, and NGOs in the last decades. The outcomes of these considerations lead to the classification of expressions in different categories of sustainability rhetoric, laying the groundwork for the development of a 'sustainability spectrum': a metric for the

level of radicalization of sustainability positions, which ranges from apocalyptic views to ultimate denial. Through the combination of historical perspectives, theoretical frameworks, and conceptual developments, this book provides a foundation for a more informed and productive dialogue between radically opposing views on sustainability issues. This volume will be of great interest to students, scholars, and practitioners researching and working in the areas of environmental communication and media, environmental politics, and sustainable development.

Renewing Feminisms Helen Thornham 2013-07-08 The feminist movement, we have been told, is history. This lively book reveals that on the contrary the feminist movement is alive and kicking, still as engaged with the concerns and ways of seeing as it was in the 1960s, 70s and 80s, still demanding its political place. *Renewing Feminisms* sets out the claim for a feminism that is renewed, re-invigorated and re-imagined. *Renewing Feminisms* offers a timely contribution to current debates about lived and imagined feminism today. The contributors, both longstanding feminists and emerging feminist scholars, take a fresh look at feminist critiques and methodologies, recalling the power of past feminist interventions, as well as presenting a new call for future initiatives in media and

cultural studies. Re-investigating the past facilitates a claim over the future, and all the contributions to this book make clear that feminism is not only far from over, it is lived and experienced in the everyday, and on personal and political levels. Divided into four key sections, the book revisits major feminist areas, investigating representational issues, those of agency and narrative, media forms and formats, and the traditional boundaries of the public and the private. What emerges is a real intervention into media and cultural studies in terms of how we understand them today.
